SIZE

Give: Either the **American Size**

The **Metric Size** as follows:

#1-12	or	Top 7in - Toe 4in - 12in long	=	EXAMPLE: F2-3Ø
#13-18	or	Top 9in - Toe 6in - 18in long		F4-F5

Caution:

DAW socks can be machine washed and dried, they do not shrink, they keep elasticity and softness—Some patients who are used to using other manufacturers' socks might be wearing a size larger than needed considering the shrinkage. With DAWFLO, to enhance venous return, you want a snug fit from the first fitting

—For example you might want to use a size 1 Instead of a size 2 for such a patient.

HOW TO ORDER

4 DESIGN SELECTION FOR DAWFLO SHEATH & SOCK

- For AK as well as BK with thigh corset, no need to specify the design (it will always be supplied in the yellow design).
- For BK amputees in American size 1 and size 2 you have the choice between- the yellow design and the green design:

Up to 18 inches (45 cm) long size 1 and size 2, the socks and sheaths in the yellow design have the same shape as other manufacturers' prosthetic socks, in the green design they have a more tapered shape and are for BK with a pointed end of residual limb

20 inches (50 cm) or longer, the green design offers a bulbous distal end:
