

Cool Sleeve™

The Ultimate Comfort Gel Sleeve.

Finally... a BK sleeve that's paid for!

Claim to fame

- Superior quality at an affordable price
- Does not promote perspiration
- No bunching behind the knee
- Convenient space-saving dispenser

DAW introduces the new revolution in suction sleeves: the Cool Sleeve. What makes the Cool Sleeve revolutionary you might ask? **Superior quality at an affordable price.** They even arrive directly to you in their own 5-pack dispenser. Place them out-of-the-way on a shelf and pull them out one at a time as you and your patients need them. No clutter and no fuss.

The Cool Sleeve's special material provides a matchless level of comfort. It gently "hugs" the skin, creating instant suction while not compressing the limb. Body temperature increases material softness to the point that most amputees report it feels like they are not wearing anything at all. This is particularly important during knee flexion, the material does not bunch behind the knee and allows for a perfectly natural knee flexion. This advanced material does not even promote perspiration.
